I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: I use compounded natural hormones for my osteopenia, and my last reading was up! There are several cases of breast cancer in my family so I wanted to use a natural hormone, not the usual commercial one which is more suited to a horse. It is very important to me that I be able to continue to get these natural hormones.
